**THE UNIVERSE OF AMATEUR RADIO.**

An adroit little group of earthlings known as Radio Amateurs have been bouncing signals around Planet Earth and beyond for over half a century. A lot of these sleepers tune-in to the Ham Radio Publishing Group as the most versatile Amateur Radio information force this side of Phnompenh.

If you have an interest in penetrating the ionosphere, leaping into outer space with VHF, UHF, EHF frequencies, satellite communication technology, or radio astronomy, you'll want to join this little band of wave makers.

**HAM RADIO HORIZONS**  
This colorful, easy and fun to read monthly magazine will help you, the beginner, understand Amateur Radio's many facets -- antennas, basic theory, simple construction projects, QRP techniques, view-port Tx, mobile radio, OSCAR & satellite communications, Radio Astronomy PLUS much more!  
HORIZONS makes technology fun so you can have a good time on the air, transmitting signals around the world. Our May 1977 issue was devoted to radio astronomy and it's a great way for you to get acquainted with Ham Radio HORIZONS. If you choose to subscribe now however, there's a special offer for you Cosmic Seekers. You can get a full year of HORIZONS for just \$6.91\* Now's the time for you to subscribe.

\*After good or new subscription rate and shipping \$10.00.

**HAM RADIO MAGAZINE**  
This is the world's leading independent technical publication of Amateur Radio. It offers you a balanced mixture of construction and technical information and keeps you up with the latest developments in communication and electronic equipment. Subscribe to HAM RADIO now. You'll be glad you did.
