THE UNIVERSE OF AMATEUR RADIO.

An adroit little group of earthlings known as Radio Amateurs have been bouncing signals around Planet Earth and Beyond for over half a century. A lot of these pleasers tune-in to the Ham Radio Publishing Group as the most versatile Amateur Radio information force this side of Preshimbu.

If you have an interest in penetrating the ionosphere, leaping into outer space with VHF-UHF-EMF frequencies, satellite communication technology, or radio astronomy, you'll want to join this wise band of wave makers.

HAM RADIO HORIZONS

This colorful, easy and fun to read monthly magazine will help you, the beginner, understand Amateur Radio's many facets -- antennas, basic theory, simple construction projects, Diving techniques, slow-scan TV, mobile radio, OSCARS & satellite communications, Radio Astronomy PLUS much more!

HORIZONS makes technology fun so you can have a great time on the air, transmitting signals around the world. Our May 1977 issue was devoted to radio astronomy and it's a great way for you to get acquainted with Ham Radio HORIZONS. If you choose to subscribe now however, there's a special offer for you Cosmic Searchers. You can get a full year of HORIZONS for just \$8.95* - Now's the time for you to subscribe.

*Offer good on new subscriptions only (Regularly \$12.00).

HAM RADIO MAGAZINE

This is the world's leading independent technical journal of Amateur Radio. It offers you a wealth of information on construction and operation of the art of communication and electronic radio. Subscribe now and send the \$5.00 to get your first issue.
