Editor's Statement

With this issue **COSMIC SEARCH** goes to two issues a year. My responsibilities for editing, publishing, and distributing four issues a year almost single-handedly are more than I can manage along with my many other activities. With this change the price goes from \$2.50 to \$3.00 per copy. New subscriptions will be on the basis of a minimum of 4 issues (2 years) for \$12.00 (\$16.00 outside the U.S.). The costs of entering, billing and maintaining accounts make a 2-issue (1 year) subscription impractical. Subscriptions already in effect will be honored for the number of issues for which payment has been made. Thus, a 2-year (8 issue) subscription on the old basis converts to a 4-year (8 issue) subscription on the new basis.

The following miscellaneous item was located on the inside front cover.

DELTA VEE

In one year Delta Vee has become one of the most effective and visible space groups. Through its *Viking Fund* to help keep pictures and weather data coming from Mars, its *Halley Fund* to send a probe to Halley's Comet, its *Ferdinand and Isabella Fund* for supporting space exploration concepts and its *Extraterrestrial Connection Fund* for supporting NASA SETI programs, Delta Vee is actively working for an expanded, dynamic space program.

Delta Vee, Inc., is a citizen's supported, non-profit space corporation. The name "Delta Vee" comes from the technical term meaning a change in velocity. Delta Vee wants more "Delta Vee" to increase the speed with which we explore space. Delta Vee is a space corporation of the people, for the people, by the people, representing over 20,000 persons who have contributed funds to help support NASA programs.

Contributions for Delta Vee's various projects may be sent to Delta Vee Inc., 3033 Moorpark Ave., Suite 27, San Jose, CA 95128.

True wit is nature to advantage dressed,
What oft was thought, but ne'er so well expressed.
